About Company

It all started with an idea from Linda, who had been working in tourism for many years.

With the support of her husband, who also works at the company, they opened this business together.

She started as a tourist guide in the Spanish islands and later returned to Portugal to work in a travel agency.

LM Tours was founded in 2008 in Alvor - Algarve. We are an incoming tourism travel agency that will help you in everything you need.
